

Trinity AME Early Learning Center is closely monitoring the impact coronavirus is having on the communities in which we operate. As always, our number one priority is protecting the well-being of the entire school community and this principle guides each decision we make.

**The health and safety of employees, students, and parents is a top priority. In addition to our already high standard sanitation procedures, our school team has:**

- Required health scans of any person entering the early learning center,
- Implemented lobby drop-off procedure for all non – infant children.
- Increased the frequency of cleaning, sanitizing, and disinfection of high-touchpoint surfaces,
- Continued our high standards of promoting regular and thorough handwashing and reminding our teachers of our best practices for personal hygiene,
- Where available, increased the use of alcohol-based hand sanitizer as a supplement to frequent handwashing,
- Trained our staff of current social distancing procedures,
- Implemented contactless operations where possible,
- Required any employee or child who is ill to stay home from school.

**Re-open Date : June 15, 2020**
